Gateway Services Community Development District

Budget Introduction

Fiscal Year 2011

Background Information

The Gateway Services Community Development District is a local, special purpose government authorized by Chapter 190, Florida Statutes, as amended, as an alternative method for planning, financing, acquiring, operating and maintaining community-wide infrastructure within planned communities. The District is a mechanism which provides the “solution” to the State’s needs for delivery of capital infrastructure to service projected growth without overburdening other governments and their taxpayers. They represent a major advancement in Florida’s effort to manage its growth effectively and efficiently. This allows the community to set a higher standard for construction along with providing a long-term solution to the operation and maintenance of community facilities.

The following report represents the District Budget for Fiscal Year 2011, which begins on October 1, 2010 and ends September 30, 2011. The District budget is organized by various funds to segregate financial resources and ensure that the segregated resources are used for their intended purpose. For that purpose, the District has established the following funds:

<u>Fund Number</u>	<u>Fund Name</u>	<u>Services Provided</u>
001, 002, 003, 004, 005	General Funds	Operations and Maintenance of Community Facilities
202, 204	Debt Service Funds	Collection of Special Assessments for Debt Service Obligations
400	Enterprise Fund	Collection of Revenue to Fund Utility Services and Operations

Facilities of the District

The District’s existing facilities include storm-water management (lake and water control structures), wetland preserve areas, street lighting, sewage collection facilities, landscaping, roadways, signage, entry features, irrigation and potable water distribution facilities, parks, a pool facility, RV and boat vehicle storage, and other related improvements, including concession stands.

Maintenance of the Facilities

In order to maintain the facilities, the District conducts hearings to adopt an operating budget each year. This budget includes a description of the maintenance program, along with an estimate of the cost of the program. The funding of the maintenance budget is levied as a non-ad valorem assessment on your property by the District Board of Supervisors.
